Application Track D: Experienced Non-Profit CMO Applicant

Section I: Introduction from Board Chair Adam Johnson

Dear Charter Applicant,

On behalf of the State Public Charter School Authority and our 23,000 incredible students, we thank you for your interest in applying to operate a high-performing school in Nevada. Whether you are applying to operate a single charter or to add to an existing network of schools, we understand the tremendous amount of work and commitment required to open and run a high-performing school.

The development and release of this Call for Quality Charter Schools and Request for Proposals (RFP) marks the SPCSA's fourth generation of charter authorizing and reflects the sweeping education reforms adopted during the 2015 Legislative Session. Some of those statutory changes will not take effect until the winter of 2016 and some regulations may not come into effect immediately. However, we have designed this process to assist applicants during the summer 2016 application cycle in meeting the new requirements now. Hopefully, this approach will mitigate the need to modify your plans in the near term.

The SPCSA is committed to quality in every aspect of our operation, and we firmly believe that quality authorizing leads to quality schools. We are committed to granting charters only to those teams who clearly demonstrate the academic vision and financial and operational capacity necessary to govern and operate high-performing schools. We welcome applicants who seek to serve students in our urban core, our growing suburbs, and our rural and Native American communities.

Our statutory responsibility compels us to provide our students and families with the very best options the charter community can provide. To that end, we will continue to partner with experienced evaluators locally and across the country to review the applications we receive. We are confident that we have created a demanding, thorough, and transparent application and review process.

As you complete your application, please feel free to contact our team with any questions via charterstarters@spcsa.nv.gov. We also operate a listserv at CharterStarters@listserv.state.nv.us and a Twitter account at [@NevadaCharters](https://twitter.com/NevadaCharters) which we invite you to follow for updates throughout this and future application cycles.

Again, thank you for your interest in joining our effort to build and deliver a high quality public school option to every student in Nevada.

Sincerely,

Adam Johnson
Board Chair

- Schools are encouraged to utilize Microsoft Word's cross-referencing features to allow for automatic updates to page numbers within the document for any element discussed in more than one section. Simply referring reviewers to content in another section or expecting reviewers to seek out and infer an answer from information which may or may not be found in an attachment is unacceptable and will be deemed unresponsive. Petitioners are expected to exercise appropriate judgement in balancing responsiveness with excessively duplicative content. It is highly advisable to answer the question posed and refer the reviewer to additional contextual information that will inform review with transitional and referential phrases such as "As discussed in greater detail in the Section____beginning on page _____, the school will..." and "Reviewers seeking more information on____may wish to refer to the section labeled _____beginning on page____. More specifically, the school will..."
- References and citations should be placed in the footer.
- The name of each major section and attachment, e.g. "Attachment 1," etc. must be placed in the footer to facilitate easy review and navigation of the materials. Bookmarking of individual sections and attachments in Acrobat is strongly encouraged to enhance readability and facilitate a thorough review.

- Schools are encouraged to use Microsoft Word’s styles features (<http://shaunakelly.com/word/styles/stylesms.html>) to manage formatting, provide for bookmarking and cross-referencing, and facilitate the generation of the table of contents and other features through the heading styles functionality.
- If a particular question does not apply to your team or application, simply respond with an explanatory sentence identifying the reason this question is not applicable to your team or proposal AND including the term “not applicable” within the sentence.
- All questions, including those identified as “Not Applicable” and tables not utilized must be left in the document. Responses may not exceed 100 pages of narrative responses and tables, meaning that the final submission, including all RFP questions (which constitute 23 pages), must be equal to or less than 123 pages. Tables which are accompanied with directions permitting the school to modify the number of rows and to customize the designated content may be changed as indicated.
- Attachments are not included in the narrative page limit.

Guidance and Resources for Applicants

Applicants are encouraged to familiarize themselves with **current** Nevada law and regulations relating to charter schools. As Nevada's statutes and regulations are continuing to evolve, it is advisable to monitor and evaluate all changes to ensure that any proposed elements meet current expectations. The Authority does not have the capacity or the statutory authority to provide individual guidance or legal advice. Charter school applicants are encouraged to consult the Charter School Association of Nevada and an attorney who is well versed in charter school law for guidance in interpreting those elements of statute and regulation for which the Authority has not incorporated its policy expectations in this document.

Nevada Revised Statutes: NRS 386.490 et seq. contains the vast majority of law pertaining to charter schools: <https://www.leg.state.nv.us/NRS/NRS-386.html#NRS386Sec490>.

During the 2015 legislative session, the state adopted a number of reforms related to charter schools. Key bills which passed include:

- SB509: Balances additional operating flexibility for charter schools with broad changes in charter school authorizing and accountability:
https://www.leg.state.nv.us/Session/78th2015/Bills/SB/SB509_EN.pdf
- SB460: Provides for an accountability framework to evaluate the performance of a small subset of charter schools which have a mission to exclusively serve opportunity youth, students with disabilities, and other particularly vulnerable populations:
https://www.leg.state.nv.us/Session/78th2015/Bills/SB/SB460_EN.pdf
- SB208: Codifies existing minimum expectations regarding the notification of families when a new charter school is scheduled to open in a community and changes the expectations around recruiting and enrolling students:
https://www.leg.state.nv.us/Session/78th2015/Bills/SB/SB208_EN.pdf

- SB390: Permits but does not require charter schools to give admissions preference to students who attend overcrowded schools or underperforming schools within a 2 mile radius of a campus: https://www.leg.state.nv.us/Session/78th2015/Bills/SB/SB390_EN.pdf
- SB200: Permits but does not require charter schools on military bases to give admissions preference to students of personnel residing on or employed by the military base: https://www.leg.state.nv.us/Session/78th2015/Bills/SB/SB200_EN.pdf

Nevada Administrative Code: As a state with a biennial legislature, Nevada relies heavily on its regulatory framework to provide guidance on the interpretation and execution of its laws. The provisions of NAC 386.010 through 386.47 govern the administration of the state's charter school program: <https://www.leg.state.nv.us/NAC/NAC-386.html>.

The state adopted a number of changes to the NAC regarding charter schools during the 2014 interim. Most of these modifications reflect the creation of the SPCSA in 2011 and the creation of a charter school accountability system in 2013. Some of these changes have not yet been codified into the existing NAC:

- R036-14A: <http://www.leg.state.nv.us/Register/2014Register/R036-14A.pdf>
- R069-14A: <http://www.leg.state.nv.us/Register/2014Register/R069-14A.pdf>
- R075-14A: <http://www.leg.state.nv.us/Register/2014Register/R075-14A.pdf>
- R076-14A: <http://www.leg.state.nv.us/Register/2014Register/R076-14A.pdf>

Due to the legislative changes during the 2015 session, applicants should anticipate that many of these regulations will be revised to reflect the most current law during the winter of 2015 and the spring of 2016 as Nevada continues to adopt best authorizing and oversight practices and policies from other leading charter school states.

Pursuant to SB509, the Authority may require that schools enter into amended and restated charter contracts as a condition of granting an amendment; this mechanism allows us to require schools to develop additional technical amendments and contractual changes as statutory and regulatory requirements evolve.

Additionally, the State of Nevada recently received a federal Charter Schools Program grant. Charter school applicants are strongly encouraged to review the federal non-regulatory guidance related to the Charter Schools Program and to consult the eligibility and approval criteria for those grants. A copy of the approved CSP grant application can be found at <http://bit.ly/1R0aelf>. Please note that CSP grant funds are highly competitive and there is no guarantee that an approved charter school applicant will be awarded a CSP grant from the Nevada Department of Education or that the amount will meet the full startup needs of the school. It is important to note that, pursuant to federal law and the conditions of the grant program, these funds cannot be used to pay for facilities.

Additional Guidance and Resources for Schools

The Nevada charter school movement and the SPCSA have undergone dramatic changes in the past four years as a result of legislative changes in the 2013 legislative session and the sweeping education reforms adopted during the 2015 legislative session. As noted above, the policy and operating landscape for charter schools has undergone significant shifts, including some changes which have yet to be codified into regulation and standard practice.

In light of these changes and the Authority board's deep commitment to accountability and continuous improvement, the expectations and standards for charter application approval and for ongoing operation have continued to evolve and our process has become increasingly more rigorous. Consequently, applicants are strongly cautioned against excessive borrowing of language from "boilerplate" Nevada charter application material and sample resources that are widely available on the internet, including legacy materials on a variety of state web sites, and documents maintained for a subset of existing schools on the SPCSA website.

As they plan their schools, the Committees to Form of Start-Up charter schools in conjunction with an EMO are encouraged to reach out not only to Nevada's leading 4 and 5 star schools, but also to the top performing charter schools in leading charter school markets, including not only states in the western United States, but also schools in places like New York, Massachusetts, and the District of Columbia. While there are some contextual differences between states, you will find that many of these networks have experienced challenges as they have grown and can share lessons learned about how to grow intentionally, strategically, and effectively.

Applicants are encouraged to avoid quoting entire statutes or regulations, or including documents that can be referred to rather than provided in their entirety in the application. Do not print materials off the Nevada Department of Education's website or the State Public Charter School Authority's website for inclusion in the application; the Review Team can access those websites if necessary. Including documents and statutes and regulations in their entirety will result in an unmanageably large application. Rather than quoting or including the entire text of statute, regulation and/or documents in the application, include only relevant excerpts or summarize the statute, regulation or document. Do not hesitate to provide citations of relevant statutes or regulations along with a thoughtful, original discussion of *how* the school intends to implement the requirements of the law, regulation, or process in a way which is *fully aligned* with the mission, vision, and program outlined in the application. In designing their policies, processes, and procedures, schools are encouraged to consider the who, what, where, when, and why for each element in the school's operating system.

Overview of the Summer 2016 Application and Application Cycle

The table below details some of the differences between eligible applicant types and tracks:

	Track A: Start-Up Applicant	Track B: Start-Up Applicant Contracting with EMO	Track C: Start-Up Applicant Independently Replicating a Proven School Model	Track D: Experienced Non-Profit Applicant Which Already Governs High Achieving Charter Schools

With the Summer 2016 charter application cycle, the State Public Charter School Authority has adopted a multiple track application format which features questions focused on the particular academic, financial, organizational, and governance opportunities and challenges associated with a variety of common applicant profiles, including those individuals seeking to start a school on their own, those groups which have elected to contract with an education management organization, and successful governing boards of charter schools which are seeking to oversee new schools in Nevada.

Successful applicants for each track will share many of the same characteristics.

Prospective applicants who are unsure of which application track is most suitable for their particular proposal are encouraged to contact the State Public Charter School Authority by phone at 775-687-9174 or via email at charterstarters@spcsa.nv.gov.

The State Public Charter School Authority views the granting of the charter as an investment of public dollars and the public trust in the service of public schoolchildren. The evaluation of each application and each applicant revolves around the same essential question: will this school be an academic, organizational, &

financial success? The application is evaluated based on the strength of the plan in each of those domains, while applicants are evaluated based on their *capacity* to execute the program they've proposed both based on the coherence, thoroughness, and thoughtfulness of each element of the application and on the data gathered during both the capacity interview process and background research and due diligence on both proposed members of the governing board and proposed staff members.

Developing a high quality charter school application is a challenging and time-consuming endeavor that requires extensive collaboration by all members of the committee to form the charter school. Reading and making recommendations on charter applications and applicants is also a time-consuming activity for SPCSA board members, staff, and the external evaluators whom the Authority works with to ensure a diversity of perspectives and expertise in the review process.

It is important to note that in contrast to other statewide independent charter school board authorizers with similarly sized portfolios, the SPCSA currently has very limited staff approved to manage school communications, the charter application process, the amendment request process, the pre-opening process for new charter schools and new campuses, performance management of existing charter contracts, or the process for renewing and closing charter schools based on performance issues. All State Public Charter School Authority employees other than the Director are primarily funded as either state agency fiscal support staff or as staff to the agency's district-like local education agency function. Consequently, schools are cautioned that timelines for review and feedback may be subject to change or modification.

The SPCSA plans to open a Winter application cycle in January 2017. Schools approved in this cycle would be able to open no earlier than Fall 2018. Due to the short amount of time between charter approval and opening, successful applicants under this timeline likely will be experienced applicants and those replicating a proven model with significant external support. Prospective applicants who are unable to submit an application which meets their own high standards during the summer round are strongly encouraged to begin working on an application Winter 2017 cycles as soon as possible. Developing a high quality charter school is a challenging, but rewarding endeavor. The application process is rigorous by design. Many of the nation's most successful charter schools experienced setbacks and initial denials and had to go back and significantly revisit their initial plans and assumptions and expand their capacity and level of commitment. While there are likely to be some changes to the timeline, process, and format in future application cycles and even the addition of new application models and cycles for specific applicant types and strategically important programs as SPCSA policy and capacity evolves, the essential questions will remain the same.

For the Summer 2016 application cycle, all applicants are currently contemplated to be on the same review timeline:

Notice of Intent	June 1, 2016

Applications should be no more than 100 pages (not including the requested attachments) and must be submitted via the submission platform.

Please submit an application that addresses the following questions / issues. There are no page limits for individual sections except for the Executive Summary. The total application may not exceed 100 pages (not including the requested attachments).

Please keep in mind that your application is a professional document. The quality of the document that you submit should reflect the quality of the school that you propose to open. Review teams will be able to navigate well-organized, effectively edited documents easily, thereby focusing their energy on reviewing the content of each application. Grammar, spelling, and formatting all make an impression on a reviewer. Responsive answers are critical: ensure that you have fully answered the question and have researched the relevant section of law, regulation, and policy. Organization and clarity are essential: use of appropriate cross-referencing by page number and, where appropriate, sub-section headings to linked areas of the application when elaborating on or demonstrating alignment to a key strategic element of the proposal.

The vision of your school should describe what success looks like for students, for the school as a whole, and for any other entities that are critical to your mission. - (1) Articulate your approach to education. Describe the most essential features of your school that ensure it will meet the SPCSA's ambitious academic goals. Specifically describe how your students, many of whom will not be proficient initially, will experience and practice academic rigor during the first year and subsequent years in which your school is progressing toward the SPCSA's academic goals.

- (2) Describe the fundamental features of your educational model that will drive outcomes in your proposed school. Key features may include:
 - Programs (e.g., curriculum, PD, afterschool program, parent program, etc.)
 - Principles (e.g., no excuses, individualized learning, learn at your own pace, etc.)
 - Structures (e.g., blended learning, small learning communities, small class sizes, etc.)
- (3) Describe the mechanisms by which the fundamental features you described in (2) will dramatically influence student success. Please provide evidence from your own experience and/or valid research.
- (4) How will you drive growth among students at all achievement levels, accelerating the achievement of those who are most behind?
- (5) Provide, as Attachment 22, academic performance data for the CMO and contact information for each campus, school, and charter school authorizer in the appropriate tabs of the spreadsheet.

CURRICULUM & INSTRUCTIONAL DESIGN

The framework proposed for instructional design must both reflect the needs of the anticipated population and ensure all students will meet or exceed the expectations of the Nevada Academic Content Standards.

- (1) Describe the proposed academic program and how it complies with the requirements of NRS 386.550 and NRS 389.018.
- (2) Describe the instructional strategies that you will implement to support the education plan and why they are well suited for the anticipated student population. Outline the data, methods, and systems teachers will use to provide differentiated instruction to all students. Please note that SPCSA schools typically start with students performing across a broad spectrum from years below grade level to advanced learners. Include the professional development teachers will receive to ensure high levels of implementation.
- (3) Describe the school's approach to help remediate students' academic underperformance. Detail the identification strategy, interventions, and remediation to be implemented. Cite the research/rationale for the chosen methods. What student academic support resources should your school expect from the EMO or CMO (if applicable)? How will you measure the success of your academic remediation efforts (in year 1, year 3, year 5, and beyond)? How will you communicate the need for remediation to parents? How will staffing be structured to ensure that gifted students are adequately supported?
- (4) Describe how you will identify the needs of all students. Identify the research-based programs, strategies and supports you will utilize to provide a broad continuum of services, ensure students' access to the general education curriculum in the least restrictive environment, and fulfill NV's required Response to Intervention model.
- (5) Explain how the school will identify and differentiate to meet the needs of intellectually gifted students in a way that extends their learning and offers them unique, tailored opportunities. Please note that Nevada law classifies intellectually gifted students as eligible for specific support services. How will staffing be structured to ensure that gifted students are adequately supported?

- (6) Describe the enrichment opportunities that will be available to students performing at or above grade level as part of the school's comprehensive strategy to ensure that all pupils are making accelerated academic progress.
- (7) Explain how students will matriculate through the school (i.e., promotion/retention policies) and how stakeholders will be informed of these standards.

PROGRAMS OF DISTANCE EDUCATION (*Distance Education Applicants Only*)

A charter school that wishes to provide distance education (online, virtual, cyber, etc.) courses and/or programs (NRS 388.820-388.874 and NAC 388.800-388.860) must submit a distance education application to the Nevada Department of Education prior to or in conjunction with its application to the SPCSA.

For applicants who do not propose to offer a program of distance education, please provide a brief statement explaining that the questions in this section are not applicable.

- (1) Describe the system of course credits that the school will use.
- (2) Describe how the school will monitor and verify the participation in and completion of courses by pupils.
- (3) Describe how the school will ensure students participate in assessments and submit coursework.
- (4) Describe how the school will conduct parent-teacher conferences.
- (5) Describe how the school will administer all tests, examinations or assessments required by state or federal law or integral to the performance goals of the charter school in a proctored setting.

PRE-KINDERGARTEN PROGRAMS

A charter school that wishes to provide pre-kindergarten services to students who will later enroll in its K-12 programs must apply separately to the Nevada Department of Education to offer education below the kindergarten level following charter approval. Approval to offer pre-kindergarten cannot be guaranteed. Consequently, revenues and expenditures related to pre-kindergarten should not be included in the initial charter application budget. Please note that state-funded pre-kindergarten programs are not directed through the state Distributive Schools Account for K-12 education. In addition to a limited amount of state pre-kindergarten funding available through the Department of Education, the SPCSA is also a sub-recipient of a federal grant to expand early childhood services in certain high-need communities through programs approved by NDE. Applicants are encouraged to review resources available at http://www.doe.nv.gov/Early_Learning_Development/. For applicants who do not propose to offer pre-kindergarten, please provide a brief statement explaining that the questions in this section are not applicable.

- (1) Identify whether the school plans to offer pre-kindergarten in the first year of operation or any subsequent year of the charter term.
- (2) Identify whether the school will offer fee-based pre-kindergarten services. If the school does plan to offer fee-based pre-kindergarten, explain how the school will ensure that parents will be informed both initially and on an ongoing basis that both state and federal law preclude a K-

12 charter school from giving admissions preference to students to whom it has previously charged tuition.

- (3) Describe the school's plans for ensuring that the pre-kindergarten program aligns with the mission, vision, and program of the school's other grades and meets all other state requirements.
- (4) Explain how the school's proposed pre-kindergarten program may meet the federal pre-kindergarten expansion grant criteria.

HIGH SCHOOL GRADUATION REQUIREMENTS AND POSTSECONDARY READINESS (*High School Applicants Only*)

High schools approved by the SPCSA will be expected to meet or exceed Nevada graduation requirements. For applicants who do not propose to operate a high school program during the initial charter term, please provide a brief statement explaining that the questions in this section are not applicable.

- (1) Explain how the school will meet state requirements. Describe how students will earn credit hours, how grade-point averages will be calculated, what information will be on transcripts, and what elective courses will be offered. If graduation requirements for the school will exceed those required by the State of Nevada, explain the additional requirements.
- (2) Explain how the graduation requirements will ensure student readiness for college or other postsecondary opportunities (e.g., trade school, military service, or entering the workforce).
- (3) Explain what systems and structures the school will implement for students at risk for dropping out and/or not meeting the proposed graduation requirements, including plans to address students who are overage for grade, those needing to access credit recovery options, and those performing significantly below grade level.

DRIVING FOR RESULTS

The SPCSA will evaluate the performance of every charter school annually, and for renewal, replication, and replacement (restart or reconstitution) purposes according to a set of academic, financial, and organizational performance standards that will be incorporated into the charter agreement and measured by the SPCSA Charter School Performance Framework, the Nevada School Performance Framework adopted by the Nevada Department of Education, and applicable law and regulation. The academic performance standards consider status, growth, and comparative performance based on federal, state, and school-specific measures. The financial performance standards are based on standard accounting and industry standards for sound financial operation. The organizational performance standards are based primarily on compliance with legal obligations and state law and regulation and SPCSA policies, including fulfillment of the governing board's fiduciary obligations related to sound governance.

Applicants are expected to propose additional mission-specific goals to complement or supplement, but not replace, the SPCSA's performance standards with school-specific, mission-driven academic, financial, or organizational goals. All such indicators, measures, and metrics are expected to be rigorous, valid, and reliable.

- (1) Describe the mission-specific academic goals and targets that the school will have. State goals clearly in terms of the measures or assessments you plan to use and describe the process by which you will determine and set targets.
- (2) In the table below, outline the clearly measurable annual performance and growth goals that the school will set in order to meet or exceed SPCSA expectations for the Charter School Performance Framework indicators and to meet state expectations for student academic growth in accordance with the Nevada School Performance Framework (NSPF) adopted by the Nevada Department of Education. You may add or delete rows as needed. Also:
 - (a) Describe your presumed baseline and explain how it was set.
 - (b) Articulate how the organization will measure and evaluate academic progress – of individual students, student cohorts, sub-groups, campuses (for invited multi-site applicants), and the entire school – throughout the school year, at the end of the academic year, and for the first three years of operation.

Goal	Evaluation Tool and Frequency	Baseline	2017-18	2018-19	2019-20

- (3) In addition to mandatory state testing, identify the primary interim academic assessments the school will use to assess student-learning needs and ensure progress towards SPCSA and state proficiency targets and describe how they will be used.
 - (a) How will you support teachers in developing embedded assessments and checks for understanding in order to ensure that instruction meets student needs?
 - (b) Explain how you will know that your proposed interim assessments are valid and reliable indicators of progress. Explain how these interim assessments align with the school's curriculum, performance goals for the school and the SPCSA, and state standards.
 - (c) Describe the corrective actions the school will take if it falls short of student academic achievement expectations or goals at the school-wide and classroom level. Explain what would trigger such corrective actions and who would be responsible for implementing them.
 - (d) Articulate how interim assessments will be used to inform instruction. How will teachers and school leaders be trained in their use?
 - (e) Regardless of grade levels served, new charter schools will not receive an NSPF or CSPF rating until after the completion of their first full year. Therefore, in the table below, identify specific interim performance goals and assessments that you will use to confirm that the school is on-track to meet ambitious academic goals throughout the school's first year with students. You may add or delete rows as needed.

Goal	Assessment	Quarter 1	Quarter 2	Quarter 3	Quarter 4

- (4) Describe the process for collecting and storing data, including the information system(s) used beyond the statewide Infinite Campus system.
- (5) Describe the process for collecting and reporting data across the network of schools.

AT-RISK STUDENTS AND SPECIAL POPULATIONS

Pursuant to State and federal law, SPCSA schools are required to serve the needs of all students in special populations. Beginning in the 2016-17 school year, the State of Nevada will switch to a weighted formula for special education. For the first time, this will provide for equitable special education funding across all Nevada public schools. Over time, this will necessitate current SPCSA-sponsored charter schools moving from a defined continuum of service to a broader continuum of services. All applicants submitting proposals to the SPCSA after the conclusion of the 2015 Legislative Session should plan on offering students a broad continuum of services.

The SPCSA operates under the following principles with regards to special populations of students:

SPCSA schools serve all eligible students. SPCSA schools do not deny the enrollment of any student based on needs or disability.

1. SPCSA schools are to ensure streamlined access for all students requiring special programs.
2. SPCSA schools develop programs to support the needs of their students.
3. SPCSA schools do not counsel or kick any students out.
4. SPCSA schools utilize best practices to expose students to the most inclusive environments appropriate.
5. If needed, an SPCSA school is responsible for developing more restrictive placements to meet the needs of the highest needs students, including but not limited to clustered placements in consortium with other charter schools.
6. SPCSA schools are responsible for providing high functioning, trained special education teams, which focus on student advocacy and high expectations. IEP teams (including school's leadership) make placement decisions at IEP meetings. Decisions are made based on evidence/data to support what is best for the student.

eligible to waive teacher licensure requirements beginning in the first year of operation for all teachers except for special education and ELL professionals as long as they meet all other federal and state requirements. Maintaining such a waiver is contingent on the school continuing to achieve at the 3 Star level or higher (or equivalent) on the statewide system of accountability. Please refer to Section 46 of SB509 (2015 session) or contact the Authority for additional information.

If yes, please detail the areas that will require additional support and the costs and criteria for selecting such services. If not, please provide a detailed description of how these functions will be managed.

SCALE STRATEGY

- (1) Describe the steps that you will take to scale your model to new sites, including the people involved and the resources contributed both by the parent organization and the new schools.
- (2) If your organization operates schools in other states, compare your efforts to scale operations to Nevada to past scale efforts in other states.
- (3) Describe your plan for embedding the fundamental features of the model that you described in the transformational change section in each new school that you plan to open.

- (4) Explain any shared or centralized support services the network organization will provide to schools in Nevada.
- (5) Describe the structure, specific services to be provided, the cost of those services, how costs will be allocated among schools, and specific service goals of the network. Please also include how the organization will measure successful delivery of these services. In the case of a charter management organization proposing to contract with an education management organization, service goals should be outlined in the term sheet and draft contract provided later in Attachment 13. Note that Nevada law allows charter schools to contract for the management or operation of the school with either a for-profit or non-profit entity. Beginning January 1, 2016, sponsors will also be permitted to grant charters directly to non-profit Charter Management Organizations which directly hold charters in other states or to Nevada non-profit corporations which were formed for the sole purpose of submitting an application in conjunction with such a Charter Management Organization.
- (6) Using the table below, summarize the division school- and organization-level decision-making responsibilities as they relate to key functions, including curriculum, professional development, culture, staffing, etc. This division of responsibilities will be evaluated both in the context of Nevada law and regulation and best organizational and authorizing practices nationally.

The organization charts should represent the all national operations and clearly delineate the roles and responsibilities of – and lines of authority and reporting among – the governing board, staff, any related bodies (e.g., advisory bodies or parent/teacher councils), and any external organizations that will play a role in managing the schools. If the school intends to contract with an education management organization or other management provider, clearly show the provider's role in the organizational structure of the school, explaining how the relationship between the governing board and school administration will be managed.

STUDENT RECRUITMENT AND ENROLLMENT

Like all public schools, public charter schools must be open to any such child, regardless of that child's race, gender, citizenship, or need for accommodations or special education services. Thus, recruitment and enrollment practices should demonstrate a commitment to providing all students equal opportunity to attend the school, and help schools avoid even the appearance of creating barriers to entry for eligible students.

- (1) Explain the plan for student recruitment and marketing that will provide equal access to interested students and families, including how the school will comply with the requirements of SB208 (2015 session). Specifically, describe the plan for outreach to: families in poverty; academically low-achieving students; students with disabilities; and other youth at risk of academic failure. For schools which are giving one or more statutorily permissible admissions

preferences pursuant to NRS 386.580 or SB390 (2015 session), please indicate if you plan to focus your student recruitment efforts in specific communities or selected attendance areas.

- (a) What is the enrollment calendar for both the first year of operation and subsequent years of operation? Please specify the dates on which the school will begin accepting applications and how long the enrollment window will last prior to conducting a lottery.
 - (b) What enrollment targets will you set and who will be responsible for monitoring progress towards these targets? What is your target re-enrollment rate for each year? How did you come to this determination? What are the minimum, planned, and maximum projected enrollment at each grade level? Outline specific targets in the table below.
 - (c) What systems will you put in place to ensure that staff members are knowledgeable about all legal enrollment requirements pertaining to special populations and the servicing of particular populations of students?
- (2) Describe the student recruitment plan once your school has opened. In what ways will it be different than your pre-opening year, in terms of the strategies, activities, events, persons responsible and milestones? How will the school backfill vacancies in existing grades?
 - (3) Complete the following tables for the proposed school to open in 2017-18. Experienced Operators applying for multiple schools must complete enrollment summary tables for each school campus opening in fall 2017.

(a) Minimum Enrollment (Must Correspond to Break Even Budget Scenario Assumptions)

- (4) Describe the rationale for the number of students and grade levels served in year one and the basis for the growth plan illustrated above. Note: particular weight will be given to rationales which prioritize academic achievement over financial returns. Start-Up applicants proposing to open with more than 400 students or more than 3 grade levels should identify and discuss the specific elements of the school model detailed throughout the application that demonstrate that the proposed school is designed to compensate for the known organizational and academic challenges which accompany serving larger student bodies and multiple grade levels in a start-up environment.

- (6) If this application is being submitted by an existing Charter Management Organization, please respond to the following:
 - (a) To what extent does the governance model of the charter management organization applicant require a waiver from the governance provisions of the charter school law pursuant to SB509 (2015 session)? If the charter management organization is from another state, how does the board of the charter management organization intend to balance fidelity to its mission with appropriate input and oversight from Nevada residents? Note: the Board of the State Public Charter School Authority strongly believes that governance is one of the key innovations of the charter school movement and it is interested in engaging in a thoughtful dialogue with best-in-class charter management organizations regarding unique and innovative governance models.
 - (b) Will the existing non-profit board govern the new school, or has the CMO formed a new non-profit corporation governed by a separate board?
